Off-reservation treaty harvest permits are required for hunting, trapping, fishing, and gathering activities in the ceded territories. Permits can be obtained at your tribal registration station or conservation office. A tribal ID from one of GLIFWC's member tribes is required to be issued a permit for off-reservation treaty hunting, trapping, fishing or gathering in Michigan, Wisconsin and Minnesota.

Permits are also available online for some activities (camping, gathering, wild-ricing, and small game) after establishing an online account or if you have your NAGFA# from previous permit. Or you may obtain all permits at tribal registration station.
