Reminder to observe health guidelines. Coronavirus remains a serious situation with many unknowns. By staying home if you're sick and calling your healthcare provider, limiting going out to public places with many people, washing hands, and maintaining social distancing, among other healthy hygiene practices, you will be helping slow the virus spread.

Tribal Council, Emergency Response Team, and Every Tribal Department, Program and Business is taking action to help with challenges being presented by this emergency. We are working hard to prevent the coronavirus from reaching the Reservation. We believe, however, the coronavirus will eventually reach us. That's why we are working equally hard to prepare to take care of our Tribal Family if the coronavirus arrives. Stay updated at LDFTribe.com
