

NOTICE TO LDF COMMUNITY:

In an effort to be proactive, the Lac du Flambeau ICW Department is seeking the community's assistance with respect to children who may need shelter during the COVID-19 pandemic. In the event that children are displaced because of parents or caregivers who become too ill to provide care, or who are hospitalized with COVID-19 disease, we anticipate that family members will step up to take the children in and provide care. However, in the event that family members are unavailable, we will need alternative homes in which to place children. It is our belief that these frightened children will be less traumatized if temporarily placed in homes on the Reservation, instead of in an institutional setting.

If you would be willing to help our children by providing shelter if the situation gets desperate, please contact the Lac du Flambeau ICW Department as soon as possible at: 715-588-4275.

Thank you for your kindness and willingness to help.
