March 18, 2020

7-12 Students & their Parents/Guardians:

Welcome to our new reality. For the next several (at least two weeks) we will be learning remotely. Some of us will be at school, some at home and you all will be working at home. We will get work/assignments to you in advance, with the understanding that you will spend at least 30 min. per day working on the lesson. This means that you will still be taking notes during your off time or evenings and working on the lesson during the day. We plan to gather daily for announcements via an online platform at 9 a.m. – Next comes ‘Wake Up the Body’ with Mr. Miller - Then plan on you splitting up your day into approximately 30 min. sessions. A schedule for “live” class meetings will look like this to start. You will be expected to check in on all of your classes each school day.

Monday & Wednesday contact:

1st Period – 10-10:30 a.m.

2nd Period – 10:40-11:10 a.m.

3rd Period – 11:20-11:50 a.m.

4th Period – 12:00-12:30 p.m.

Plus, at least 30 min. Imagine Math

Tuesday & Thursday contact:

5th Period – 10-10:30 a.m.

6th Period – 10:40-11:10 a.m.

7th Period – 11:20-11:50 a.m.

8th Period – 12:00-12:30 p.m.

Plus, at least 30 min. Imagine Math

Plan on bathroom breaks and snacks in those 10 min. periods between available contacts. If you don’t check in during live contact periods or submit homework on schedule, you will be considered “absent”. Please try to stay engaged during this difficult period of time. It can only strengthen your knowledge and understanding. If there is a classmate who doesn’t understand something, either help them online, on the phone or encourage that they contact us.

This may change or be rewritten after we gather, again... but expect most information to come to you via Google Classroom, ZOOM or email – That is why it will be so important that you all can get into your email. Your address should be lastname.firstname@mercertigers.org with a password of tiger123. Please use your school email, only...not other personal emails!

The work we ask you to begin with may not be a continuation of the current lesson, or even be from your regular textbook. If we felt that without full lectures, it might be too difficult to begin in those books, we found other resources and copied or scanned pages for you to work with. You can either print them, write on them, photograph them and email your work back to us.... Or just use the page number, your name on blank paper and either email it to us or drop your work off at the office for us to grade.

If you don’t understand something you can call school (715-476-2154) or email us during the work day and we will do our best to help you out. If that means we need to work something out and scan it, email it to you and then call to discuss it, make sure you give us a phone number where we can reach you ... we will try to use email whenever possible.

Your work for the first week will be posted in Google Classroom, there may be some work to pick up along with this letter and your books. Please know that we need a contact from everyone at least once a day. We will initiate contact with you at least two times a week to ensure that you are working.

Thank you for your patience during this transition, understand that we don’t know everything about technology and it may take a few days for us to develop a rhythm. If you are emailing pdfs of work, they can be sent at any time of day. Drop-offs should probably be done once a week.

All Google Classroom class codes can be found on the reverse side of this letter..... please keep this until you have made the initial contact with each teacher’s link...once you have done so, you don’t need this code.

Mr. Brent T. Wambold

Mr. Ed Tice

Mrs. Sue Guenard

Ms. Melinda Suefflow

Mrs. Sandra Karpen
